

Inter-Agency Basic Prescribed Fire Training

2009-2010

A Course on the Basics of Prescribed Fire

This course is designed to train individuals in public and private agencies and organizations that are charged with the responsibility of performing prescribed burns.

WHAT YOU WILL LEARN

The course objectives are stated in broad terms and define what the trainee will be able to do upon successful completion of this course.

1. Identify those factors of fire intensity which have an effect on local resources.
2. Identify the requirements and components for developing proper burn prescriptions and operational plans.
3. Identify burn techniques that need to be applied to meet burn plan requirements.
4. Develop a burn prescription and an operational plan for given fuel types, given land management objectives, fire behavior history, weather data and fuel loading.
5. Execute the operational plan, meeting local management objectives; smoke disbursement and visibility within public health standards.
6. Evaluate immediate post-burn fire effects against given management objectives.

REQUIREMENTS

Good physical condition, there will be arduous, live field activities. While not required it is recommended the student have taken S-130, S-190, or have hands on fire experience. Check with local DOF office for these classes.

PPE-Safety equipment:

Canteen, leather boots, nomex clothing, hardhat and fire shelter.

If you do not have this equipment available
